

Mom2Mom

Great for new moms!

Get support during the first months after baby arrives, through one:one time with a volunteer mentor mom. Mentors offer a warm, welcoming presence, share information about attachment & development, and help you connect to resources.

Great for second time moms!

Talk to an experienced mom about raising two kids at once! Each child is wonderfully unique-and what worked with the first might not work with the second. Talk about tips and tricks, realistic expectations for everyone, giving both kids time and TLC, and even taking time for yourself!
