

Maintaining Dignity: Balancing Parents' Safety and Independence in Life

Part of the "Caring for Our Aging Parents" series

It can be challenging to care for parents as they age and need more of your support. Parents may insist upon driving despite safety concerns, or refuse to take vital medication. They may want to remain in their multi-story home although they have great difficulty going up and down stairs. Gain perspective on how to maintain respect for your parents' dignity and independence, while you also look out for their safety.

Monday, March 8

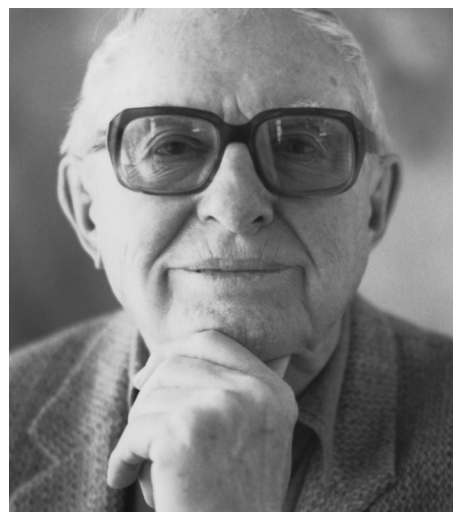

7:00 – 9:00 p.m.

Held at the Seattle Kollel, 5305 52nd Ave S., **Seattle**

Advance registration encouraged. \$10/person.

Scholarships are available; please ask if interested.
